**\*\* Please note most insurance carriers have many sub-plans, unfortunately all Physicians are not on all the sub-plans that an insurance carrier may offer. Due to the fact that there are a large number of plans under each insurance carrier our Practice recommends that patients contact their insurance carrier with a Physicians NPI number (National Provider Identifier number). With the NPI number the insurance carrier can confirm whether or not they show the Physician as participating with a patient's specific plan.**
